Preparation of the hatching tank & hatching medium		
Hatching tank and equipment cleaned and disinfected :	yes	no
Water treatment (select treatments) :	Sedimentation / Sandfiltration / Ozone / Mechanical filtration / Proteinskimmer / Active Carbon / Biofilter / UV / Ultrafiltration	
Hatching medium disinfected in the tank :	yes	no
Dose of the disinfection treatment :		
Preheating of water :	yes	no
Temperature control during hatching :	yes	no
Aeration :	yes	no
Volume :		L
Dissolved oxygen		mg/L
Salinity :		ppt
Temperature :		°C
Illumination :		lux at the surface
pH :		
Bicarbonate or alternative :		g/L
NaOH or alternative :		%
		mL/L
Addition of Sanocare ACE Pro		mL/L
Others		
Cysts		
Product temperature :		°C
Brand/type :		
Batchnr :		
Quality :		kNPG
		%
Weight :		g
Hatching density :		g/L
Hatching conditions		
Start of the hatching :		h
Harvest :		h
